Dear Sir,

**THREAT OF DISRUPTION OF OUR OPERATIONS AT
UMUECHEM BY MEMBERS OF UMUECHEM COMMUNITY**

We write to inform you of an impending attack proposed for early hours of tomorrow 30/10/90 by members of Umuechem Community on our kobo-1 Workover Rig and Camp site currently positioned at the Umuechem Oil Field in Etche Local Government Area of Rivers State.

The cause of this threat cannot be immediately ascertained but it is not unlikely to be connected with demand for social amenities which, in recent times, has become an order of the day with most communities in our areas of operation.

In anticipation of the above threat, we request that you urgently provide us with security protection (preferably Mobile Police Force) at this location.

We trust you will give us the desired co-operation on this matter to enable us have the peaceful and safe operating environment necessary to achieve our planned crude oil production targets.

Yours faithfully,
